

ZAZIE PRODUCTIONS · ZAZIE KANWAR-TORGE

Research Annex — Engine Audits, Discovery Passes, Evidence Ledgers, Quarantine Register, Link Maps & Listen Links

The complete research record of the exact-name census in one colour-coded volume — companion to the Master Directory of media features

Every engine probed · every pass reported · every lead logged · every quarantine row documented · every link clickable

755	92	17	20	52	94	61	230
links in the master volume	engine probes logged	research passes & submitted batches	magazine / zine features	editorial-literary ledger rows	quarantine register rows	compilation listen links	seed domains indexed

WHAT THIS VOLUME IS. The Master Directory prints every catalogued link, ranked and colour-coded by media type. This annex prints the *research record behind it*: which search engines and databases were probed and what each one returned, what every discovery pass found and how each finding was verified, the full editorial and literary evidence ledger, the web-presence expansion (backlinks, entity records, historical pages, web archaeology), the complete low-trust quarantine register with its safety charter, the map from the 2026 Accomplishment Register to public links, a listen link for every compilation credit, the seed-domain coverage of the original link dump, and every query and source-access log the passes produced. Sections 13, 14 and 16 report the three batches of URLs handed in on 2026-09-15 and section 17 the single link handed in on 2026-09-24; section 15 re-cuts the whole census by the project each link belongs to.

HOW IT IS ORGANISED. One colour-coded section per research register, ordered from method (rules, engine audits) through the discovery passes in the order they ran, to the cross-cutting registers (quarantine, link map, listen links, seed coverage), the process appendices (queries, access logs, endpoints), the project-section re-cut of the census (§15), the three user-submitted batches of 2026-09-15 (§13, §14, §16) and the single link submitted on 2026-09-24 (§17). Chips carry status: **green = worked / live**, **amber = partial**, **red = blocked / broken**, **grey = unreachable / unchecked**, **slate = lead or archive-only**. Every URL is printed in full and clickable.

PROVENANCE. These tables are rendered directly from the machine-readable registries under data/ and registry/ — the CSV and JSON files are the source of truth; this PDF is their organised, permanent reading edition.

CONTENTS

seventeen colour-coded registers plus the endpoint appendix - rendered from the CSV/JSON registries

1	Census rules, colour code & method	exact-name targets, inclusion rule, tiers, statuses, categories - the compact rulebook	page 3
2	Search-engine audit - Passes 1-8	every mainstream, meta and independent engine probed, what each returned, what blocked bots	page 4
3	Regional & alt-engine sweep - Pass 9	62 regional, independent, archival and scholarly interfaces with access verdicts	page 5
4	Maximum-Depth Research Pass - 2026-09-05	engine visibility per target, re-verified anchors, discovery ledger of all 20 leads, follow-up queue	page 8
5	Magazine & zine features registry	20 qualified editorial features with evidence, engine visibility matrix, Tier-C mentions, unresolved leads	page 11
6	Editorial & literary evidence ledger - Phase 3	every literary/editorial surface checked with exact evidence quotes and discovery route	page 17
7	Web-presence blind-spot expansion - Pass 11	backlinks, visual surfaces, social, entity records, historical/deleted pages, web archaeology	page 20
8	Low-trust quarantine register - Pass 10	94 spam / scraper / syndication / SEO-poisoning and borderline-kept rows, safety charter, queries and access log	page 26
9	Accomplishment Register to link map	the 2026 register entries mapped to their public links, with HUNT / AUTH / lead states	page 31
10	Listen links - every compilation appearance	one listen link per compilation credit, confirmed / label-root / unresolved	page 37
11	Seed index & domain coverage	the original raw-dump seed: 260 URLs across 230 domains	page 40
12	Query inventories & source-access logs	every exact query string run per pass and every fetch logged with its outcome	page 42
13	User-submitted intake pass - 2026-09-15	9 URLs handed in after the baseline: what each one turned out to be, what counted, what did not, and why	page 50
14	Second user-supplied backlink pass - 2026-09-15	ten hand-found URLs fetched and tested: submission ledger, evidence read on each page, five derived discoveries, four rows corrected	page 53
15	Project-section pass - grouping the census by project	the census re-cut one project at a time - every commission, compilation, anthology and film with all of its links in one place, own page first, scraped copies last	page 57
16	User-submitted link batch - 2026-09-15 (third batch)	eleven reader-found/adjacent URLs, each opened and exact-name checked: verdicts, quarantine calls, leads and the fetch log - incl. the Ars Electronica 2026 work credit	page 62
17	User-submitted link - 2026-09-24 (Castro episode page)	one reader-found podcast-player page for the BMC Radio Art commission: exact-name check, the same-episode surface map, adjacent leads, the fetch log - and one pipeline fix	page 65
A	Appendix - tools, endpoints & query templates	all search endpoints, APIs and archive lookups used by the census, clickable	page 67

1 - CENSUS RULES, COLOUR CODE & METHOD

the compact rulebook every pass ran under - targets, inclusion rule, evidence standard, tiers, statuses and the category colour code

master volume: 755 links - A 124 - B 209 - C 305 - D 117

THE TWO TARGETS. One person / one artist project: *Zazie Kanwar-Torge* (composer, film scorer, experimental/noise musician, filmmaker, writer, multimedia artist) and the project name *Zazie Productions*. The census deliberately excludes the unrelated French singer "Zazie", the company "Zazie Films", Zazie Beetz and every other same-name entity.

EXACT-NAME INCLUSION RULE (Pass-7 standard). Countable evidence must render the exact string *Zazie Productions* — the contiguous "Productions" sequence in any spacing or case (*ZazieProductions*, *Zazie_Productions*, *zazieproductions* and platform-URL forms such as *github.com/zazieproductions* all count on their own) — or the exact person string *Zazie Kanwar-Torge*. The no-space person variant (*ZazieKanwar-Torge*) and the en-dash form do **not** count on their own; handles and slugs are recorded as leads only.

EVIDENCE STANDARD. A record counts when the exact string was (i) seen on the fetched page, (ii) returned inside the platform's own structured API or index response, or (iii) confirmed in a search-index snapshot of the page. Search-engine snippets alone produce *leads*, never records. "Verified" is only claimed when the live page was opened and the exact name read on it. Mirrors of one original deduplicate to a single primary row; truncated display URLs were folded back to their full form, never counted twice.

TRUST TIERS. **A** verified institutional or independent-press record · **B** supporting platform, catalogue or trade record · **C** community, compilation or self-published context · **D** quarantined spam / scraper / syndication / poisoned (never counted as coverage).

WHAT IS NOT CLAIMED. No exhaustiveness: print-only, private, paywalled, deleted, unindexed or region-blocked presence cannot be enumerated — absence means "not found on the census date", never "does not exist". Inclusion proves a public exact-name record exists; it does not independently validate every promotional, biographical, award or review claim made by that source. No addresses, phone numbers or emails are stored as data.

	CATEGORY (as colour-coded in the master volume)	HEX	LINKS	WHAT BELONGS HERE
P	Press & Editorial	#d93025	98	reviews, features, interviews, articles, press coverage
P	Publications & Recognition	#7b1fa2	28	awards, anthologies, honours, institutional credit pages, published writing
F	Film, Festivals & Exhibitions	#d81b60	61	festival selections, screenings, exhibitions, film-credit records
P	Podcasts & Broadcasts	#3949ab	8	radio broadcasts, podcast episodes and show notes
P	Profiles & Catalogs	#1a73e8	107	artist / composer / professional profile and directory pages
M	Music Discography	#c2185b	1	catalogue and discography database records (label, master, release)
S	Streaming & Music Platforms	#039be5	59	streaming services, music-identification apps, audio catalogues
L	Lyrics & Music Databases	#00897b	1	lyrics and music-metadata database entries
M	Music Compilations	#e8710a	162	compilation, netlabel and split-release credit appearances
O	Official Properties & Channels	#2e7d32	51	artist-owned storefronts, channels, repositories, self-published pages
C	Community, Wiki & Fan Indexes	#188038	54	wikis, fan lists, forums, quizzes, charts, community pages
S	Search-Engine Index	#0f9d8f	3	search-engine result surfaces and redirect artefacts holding the name
V	Video Mirror / Backlink Sites	#607d8b	5	video-proxy and embed surfaces reading as ordinary listings
S	Spam, Scraper, Syndication, SEO-Poisoning & Low-Trust	#616161	117	QUARANTINE — hacked-site doorways, scraped clones, auto-generated metadata, paste reposts, mirror farms; documented, never cited

2 - SEARCH-ENGINE AUDIT - PASSES 1-8

how widely and where the exact names are indexed: every mainstream, meta and independent engine probed with the same two exact-phrase queries, and what each returned

14 engine rows

HEADLINE FINDINGS (audit of 2026-09-04). The two names are indexed on every major engine and on at least two independent crawlers (Marginalia, Brave's own crawler). Meta-search behaviour mattered more than engine choice: **Yahoo returned the richest exact-match set**; Bing's direct SERP served weak AI-generated results although its index clearly holds the name; **Marginalia surfaced track-level netlabel/Bandcamp pages the mainstream engines deprioritized** — the single biggest obscure-engine win. **DuckDuckGo, Startpage, Yandex, Mojeek and most public SearXNG instances block headless bots** (captcha / JS proof-of-work) and need a browser session or a self-hosted instance; opnxng.com and baresearch.org were the working public SearXNG workhorses. Later passes (4-8) broadened the inclusion rule to the contiguous "Productions" sequence, resolved register entry #64 (Infinite Self Pavilion / The Wrong Biennale), catalogued the DistroKid-family platform artist pages, and folded 16 + 9 + 7 new verified surfaces into the master index pass by pass.

ENGINE	ACCESS METHOD	ACCESSIBLE?	NOTES / WHAT IT SURFACED
Google	arena web_search aggregator	WORKED	Confirms the major surfaces (IMDb, LinkedIn, MUSE, Groover, SoundBetter, Slaps, Viberate, Bandcamp, FilmFreeway, Stage32, ReelCrafter, WFCN, Musicians.Directory).
Bing	bing.com/search?q="..."	PARTIAL	Returned AI-generated, largely off-topic pages for the exact query (visa/immigration results - wrong match). Bing's index clearly holds the name (Yahoo runs on Bing's index), but its direct SERP was not useful.
Yahoo	search.yahoo.com/search?p="..."	WORKED	Best exact-match set. Surfaced: itch.io, Musicians.Directory, youtube.com/@zazieproductions, Linktree, instagram.com/zazieproductionsofficial/ (12K followers) and pro.soundclick.com/ZazieProductions.
DuckDuckGo (HTML)	html.duckduckgo.com/html/	BLOCKED	Returns the "select all squares with a duck" bot challenge.
Startpage	startpage.com/sp/search	BLOCKED	"Anubis" JavaScript proof-of-work verification.
Yandex	yandex.com/search/	BLOCKED	"Please confirm you are not a robot" (SmartCaptcha).
Mojeek	mojeek.com/search	BLOCKED	Altcha "I'm not a robot" challenge.
SearXNG (searx.be)	searx.be/search	BLOCKED	"Cap" self-hosted captcha / browser verification.
SearXNG (searx.tiekoetter.com)	searx.tiekoetter.com/search	BLOCKED	Captcha / "Checking request".
SearXNG (opnxng.com)	opnxng.com/search	WORKED	Best SearXNG workhorse. Found label/compilation listen URLs (GhostNun, Owlripper, The Hills Are Dead, Gelombang, Vanishing Point Syndicate, Dittany of Crete, Z-Dimension, Plataforma Recs, Camembert, Psych Lovers, Terminal Future Industries, etc.).
SearXNG (baresearch.org)	baresearch.org/search	WORKED	Fallback SearXNG; confirmed GhostNun result.
SearXNG (search.inetol.net)	search.inetol.net/search	PARTIAL	Returned "no results" for most exact-title queries (Weak coverage for niche netlabel titles).
Brave Search	search.brave.com/search	WORKED	Surfaced: Bandcamp, SoundBetter, FilmFreeway, itch.io, Apple Music, Slaps (all already in master).
Marginalia	marginalia-search.com/search	WORKED	Independent crawler. Surfaced track-level Bandcamp pages: Synthetic Dystopia's Slippage Beneath the Hyperlink, Petroglyph Music's Moving in Perpetual Slumber, Institute For Alien Research Liquid Phosphorus / movimiento diez 'Oscillographia', Camembert Électrique Isochamber Drift, Argali Records Vibroscriptorium, plus FilmFreeway sub-pages - and non-Bandcamp obscure wins (CJSW radio, Breezewiki/Analog-Horror, CincyMusic, Tinnitist article, Broken Zen). Starts throttling after ~3 requests; query in spaced bursts or self-host.

3 - REGIONAL & ALT-ENGINE SWEEP - PASS 9 (2026-09-05)

62 regional, independent, archival and scholarly engines and interfaces run against both exact names - Baidu to Leit.is, national web archives, scholarly APIs

62 engines logged

PASS OUTCOMES. Mail.ru confirmed as a captcha-free access path into the Yandex index (surfaced the OK.ru artist page, Yandex Music artist and playlist links, an archive.ru bio and a GitHub profile-repo). 360 Search (China) surfaced two Douyin/Qishui track pages; Seznam (Czechia) returned deep-tail pages on its own full-text index; Yahoo! JAPAN and Walla! confirmed Google-backed coverage from their interfaces. **+15 Internet Archive full-text records** entered the master, including the IA Public Domain Day Remix Contest 2026 film, a zines-collection item and the two Mystery File Dumps. Ghostery Search confirmed discontinued (closed beta 2026-06). Clean negatives were logged for OpenAlex, Europe PMC, Zenodo, Library of Congress and Arquivo.pt. Sogou, Mojeek, Trove and Rambler blocked; BIGLOBE, Excite JP, GiveWater, Stract, BoardReader, Ask, AOL and HotBot were dead or down. Blocked or snippet-only hits were classified as leads, never records.

ENGINE	CLASS	REGION	ENDPOINT TESTED (clickable)	ACCESS	BACKEND	NOTES / WHAT IT SURFACED
Baidu	Regional (China)	zh-CN / CJK	https://www.baidu.com/s?wd=%22Zazie%20Productions%22	PARTIAL	Own index	SERP renders; retrieved chunks contained hot-search chrome, no organic rows; needs interactive browser to read organic section. No exact-name evidence captured this pass.
Sogou	Regional (China)	zh-CN	https://www.sogou.com/web?query=%22Zazie%20Productions%22	BLOCKED	Own index (Tencent)	Redirected to /antispider verification page; IP+captcha wall.
360 Search (So.com)	Regional (China)	zh-CN	https://www.so.com/s?q=%22Zazie%20Productions%22	WORKED	Own index	Surfaced 2 Douyin/Qishui Music track pages ('Subliminal Failures', 'Stokes Diapir' by Zazie Productions) - Chinese index coverage of the music catalog. Destination URLs are so.com redirects; logged as leads.
Shenma	Regional (China)	zh-CN	sm.cn (mobile app-only; no public web SERP)	UNREACHABLE	Own index (Alibaba/UC)	Mobile-app-only search engine; no public desktop web interface.
Naver	Regional (Korea)	ko	https://search.naver.com/search.naver?query=%22Zazie%20Productions%22	NO HITS	Own index	Page renders; AI briefing explicitly found no direct 'Zazie Productions' info and returned Zazie-Beetz noise. No organic hits.
Daum	Regional (Korea)	ko	https://search.daum.net/search?q=%22Zazie%20Productions%22	NO HITS	Kakao index	Only related-search suggestions + AdSense returned; no organic rows.
Nate	Regional (Korea)	ko	https://search.nate.com/search/all?q=%22Zazie%20Productions%22	NO HITS	Daum/Kakao-backed	Redirects to Daum/Nate combined SERP; empty organic section.
NAVER Encyclopedia surface	Regional (Korea)	ko	terms.naver.com / dict.naver.com (via SERP tabs)	NO HITS	Own encyclopedia	Encyclopedia/dict tabs reachable from SERP; no target-name entries.
Seznam	Regional (Czechia)	cs	https://search.seznam.cz/?q=%22Zazie+Productions%22	WORKED	Own index (Seznam robotnik)	Full organic SERP incl. pages deep in the tail (pebblesunderground.art, clongclongmoo tag, z-dimension, behance moodboards). Pagination to page 3 offered. All surfaced URLs cross-checked against master.
Coc Coc	Regional (Vietnam)	vi	https://coccoc.com/search?query=%22Zazie%20Productions%22	UNREACHABLE	Own index (VN)	Fetch failed (service unreachable from this egress).
Petal Search	Regional (global/Huawei)	en/multi	https://petalsearch.com/search?query=%22Zazie%20Productions%22	UNREACHABLE	Meta (multiple backends)	Fetch failed.
Yandex (regional domains yandex.ru/.com/.tr)	Regional (RU/CIS/TR)	ru/multi	https://yandex.com/search/?text=%22Zazie%20Productions%22	BLOCKED	Own index	Direct SERP captcha-walled (consistent with Pass 1 audit).
Mail.ru Search	Regional (RU)	ru	https://go.mail.ru/search?q=%22Zazie+Productions%22	WORKED	Yandex index (banner: 'Yandex: naslos 2 tys. rezultatov')	Bypasses Yandex captcha. Surfaced ok.ru artist, music.yandex.ru artist, archive.ru bio, github profile-repo, Yandex Music playlist links.
Rambler	Regional (RU)	ru	https://nova.rambler.ru/search?query=%22Zazie+Productions%22	BLOCKED	Meta (Yandex-backed)	Robot-check interstitial.
Goo	Regional (Japan)	ja	https://search.goo.ne.jp/web.jsp?MT=%22Zazie%20Productions%22	UNREACHABLE	Meta (JP)	Fetch failed.
Yahoo! JAPAN	Regional (Japan)	ja	https://search.yahoo.co.jp/search?p=%22Zazie%20Productions%22	WORKED	Google-backed (JP interface)	~7,570 count; page 1 all known/already-master surfaces; pagination 4 pages offered. Confirms Google-index coverage from JP interface.
Rakuten Infoseek	Regional (Japan)	ja	https://search.infoseek.co.jp/Web?qt=%22Zazie%20Productions%22	UNREACHABLE	Meta (JP)	Fetch failed.
BIGLOBE Search	Regional (Japan)	ja	https://search.biglobe.ne.jp/web?q=%22Zazie+Productions%22	UNREACHABLE	Meta (JP)	Endpoint changed/removed.
Excite JAPAN (excite.co.jp)	Regional (Japan)	ja	https://www.excite.co.jp/search/Web?query=%22Zazie+Productions%22	UNREACHABLE	Meta (JP)	Web-search path returns site 404; service retired.
Walla! Search	Regional (Israel)	he	https://search.walla.co.il/?q=%22Zazie+Productions%22	WORKED	Google-backed (Hebrew interface)	~1,810 results; surfaced gumroad product page among known surfaces.
Search.ch	Regional (Switzerland)	de/fr/it/en	https://www.search.ch/?q=%22Zazie+Productions%22	WORKED	Own tel-directory + web	Tel directory: no entries. Web: only Zazie-Beetz / 'Zazie dans le metro' noise.
Najdi.si	Regional (Slovenia)	sl	https://www.najdi.si/search.jsp?q=%22Zazie+Productions%22	PARTIAL	Own index (SI)	Search path redirected to portal front page; no SERP retrievable server-side.
SAPO	Regional (Portugal)	pt	https://pesquisa.sapo.pt/?q=%22Zazie+Productions%22	UNREACHABLE	Meta (PT)	Fetch failed.

ENGINE	CLASS	REGION	ENDPOINT TESTED (clickable)	ACCESS	BACKEND	NOTES / WHAT IT SURFACED
Rediff	Regional (India)	en/hi	https://search.rediff.com/dirsrch/default.asp?MT=%22Zazie+Productions%22	UNREACHABLE	Own index (IN)	Fetch failed.
Egerin	Regional (Kurdish)	ku	https://egerin.com/search?q=%22Zazie+Productions%22	SEARCH ENDPO	Own index (Kurdish)	URL served as a news article; the site now serves editorial content at that path - legacy SERP gone.
Yongzin	Regional (Tibetan)	bo	https://www.yongzin.com/search?q=%22Zazie+Productions%22	BLOCKED	Own index (Tibetan)	Access-control denial for non-browser fetch.
Leit.is	Regional (Iceland)	is	https://leit.is/?q=%22Zazie+Productions%22	UNREACHABLE	Google-backed (IS)	Fetch failed.
Kagi	Independent (paid)	en	https://kagi.com/search?q=%22Zazie+Productions%22	PARTIAL	Meta (own ranking)	Redirects to sign-in; no anonymous access.
Mojeek	Independent (own crawler)	en	https://www.mojeek.com/search?q=%22Zazie+Productions%22	BLOCKED	Own index	Bot challenge; consistent with Pass 1.
Marginalia	Independent (own crawler)	en	https://marginalia-search.com/search?query=%22Zazie+Productions%22 (retry after throttle)	WORKED	Own index (non-commercial crawl)	Confirmed prior-pass set and re-surfaced camembertelectrique 'Frost Directive XIII' / 'Grief is a Hot Commodity' (already in master) + church-of-noisy-goat 'Post-Carbon Signal Rot / Comunión V.2.3' (new discovery -> logged as lead; track page not fetched this pass).
Wiby	Independent (classic-web index)	en	https://wiby.me/?q=%22Zazie+Productions%22	WORKED	Own index	Query executed ('That's everything I could find' = empty result set).
Brave Search	Independent (own crawler)	en	https://search.brave.com/search?q=%22Zazie+Productions%22	WORKED	Own index (+ Bing fallback)	Page 1 = known master surfaces (bandcamp, soundbetter, filmfreeway, itch, apple, slaps).
Yep	Independent (own crawler, Ahrefs)	en	https://yep.com/web?q=%22Zazie+Productions%22	WORKED	Own index	Surfaced NEW: spacehey profile, metapsychosis creative-agents page, equipboard (known), tinnitist tag (known), filmfreeway photos variant.
Qwant	Independent/meta (EU)	en/fr	https://www.qwant.com/?q=%22Zazie+Productions%22&t=web	PARTIAL	Bing/Ecosia-backed (FR)	Header-only server-side render; organic rows require JS.
Swisscows	Independent/meta (CH)	en/de	https://swisscows.com/en/web?query=%22Zazie+Productions%22	WORKED	Bing-backed	Visible snippets = the 10 known master surfaces. No new.
Stract	Independent (own crawler)	en	https://stract.com/search?q=%22Zazie+Productions%22	UNREACHABLE	Own index	Project unavailable at tested path.
Gigablast (archival instances)	Independent (defunct)	en	gigablast.com / known archival mirrors	NOT AVAILABL	Own index (defunct 2022+)	No public archival instance reachable; recorded as unavailable.
YaCy public node (searchlab.eu)	Independent/P2P	en	https://yacy.searchlab.eu/yacysearch.html?query=%22Zazie+Productions%22	WORKED	P2P peer index	0 local / 0 remote peers held the phrase; coverage is peer-dependent, retry other nodes possible.
Public SearXNG - opnxng.com	Meta (SearXNG)	en	https://opnxng.com/search?q=%22Zazie+Kanwar-Torge%22	WORKED	SearXNG (google cse + others)	Extended second-name coverage: IMDb, LinkedIn, Pulitzer, MUSE, Stage32, PRonTheGo, ViralNation known; surfaced Facebook-group comment + TicketTailor 'Swinewomb' credit (TicketTailor already in master).
Public SearXNG - searx.be / tiekoetter	Meta (SearXNG)	en	searx.be/search	BLOCKED	SearXNG	Not retried at depth.
Whoogle public instances	Meta (self-host proxy)	en	(no stable public instance reachable)	NOT TESTED-C	Google proxy	Public instances migrate frequently; none validated from sandbox this pass.
MetaGer	Meta (DE nonprofit)	en/de	https://metager.org/meta/meta.ger3?eingabe=%22Zazie+Productions%22	QUERY DROPE	Meta (multi)	GET with query param redirected to marketing landing; needs interactive session.
Ekoru	Charity meta	en	https://ekoru.org/?q=%22Zazie+Productions%22	PARTIAL	Google/Bing remix	Only vertical links (Bing video, Google maps/shop/books) rendered.
GiveWater	Charity meta	en	https://givewater.com/search?q=%22Zazie+Productions%22	UNREACHABLE	Google remix	Service offline.
OceanHero	Charity meta	en	https://www.oceanhero.today/web?q=%22Zazie+Productions%22	WORKED	Bing-backed	Surfaced arthive.com bio + getheard.fm (both new) + ReverbNation root + 3 'Zazie Productions - Topic' YouTube videos.
Ghostery Private Search	Independent	en	https://ghosterysearch.com/search?q=%22Zazie+Productions%22	UNREACHABLE	Meta	Service moved to closed beta per official blog post.
BoardReader	Forum-search vertical	en	https://www.boardreader.com/search?q=%22Zazie+Productions%22	ENDPOINT CHA	Forum index	Site alive; search path moved.
Million Short	Independent/meta	en	https://millionshort.com/search?q=%22Zazie+Productions%22	PARTIAL	Meta	Search now requires account.
Search Encrypt / Dogpile / WebCrawler / Excite.com / Info.com / AOL / Ask / Lycos / HotBot	Meta veterans (InfoSpace/System1 family)	en	dogpile.com/search ; info.com/serps ; search.aol.com/aol/search ; ask.com/web ; search.lycos.com/web ; hotbot.com ; excite.com/serp	PARTIAL	Google/Bing remixes	Info.com (Google-fed): page 1 all known surfaces, 5 pages offered. Family engines largely retired/degraded for programmatic access.
Internet Archive full-text search	Archival	en	https://archive.org/advancedsearch.php?q=%22Zazie+Productions%22&rows=25&output=json	WORKED	IA in-item full text	16 items NOT in master (self-issued uploads, zines, contest film, label-discography mirror, yyyyyyy.info recovery). All metadata-verified via archive.org/metadata endpoints.
Wayback Machine CDX	Archival	en	web.archive.org/cdx/search/cdx?url=zazieproductions.com&matchType=domain	SERVICE ERRO	Wayback CDX	CDX API erroring from this environment; availability API answered: NO snapshots of zazieproductions.com root. Retry from browser recommended.

4 - MAXIMUM-DEPTH RESEARCH PASS - 2026-09-05

the deepest single-pass sweep: 54 new records entered the master directory, 11 repo URLs re-verified live, 20 leads logged - every search executed and date-bounded on 2026-09-05

54 new records - 11 re-verified - 20 leads

WHAT THE PASS FOUND (all now printed in the master volume). Two new Bandcamp releases where the exact name is the artist credit: the artist-run netlabel *The Vanishing Point Syndicate — Dissonance Index Vol. 1* (track 1 "Pyrogenesis" by Zazie Productions) and *909 Dead Batteries — Winter 2025* (track 7 by **Zazie Kanwar-Torge** — the only new personal-name-exact music release located). Two new compilation appearances: Camembert Electrique *SHIPPAI* ("Grief is a Hot Commodity") and the arrhythNia *aNr124* split (also a new Discogs release). 14 album/track URLs on the artist's own Bandcamp store. A MusicBrainz Person record listing 7 V/A compilation releases; the Discogs label "Not On Label (Zazie Productions Self-released)" plus two release records; the Apple/iTunes 25-track exact-name catalogue (artistId 1623719351). **19 Internet Archive items** including *Instructions for Clean Living* — the only IA item matching the personal name exactly ("developed and produced by Zazie Kanwar-Torge, working as Zazie Productions") — and the self-uploaded *Phantom Requiem* film. Listen Notes podcast indexing rendered both exact names on one page. Negatives logged (never claimed exhaustive): no Wikidata entity, no Wikipedia article, no GitHub repo under the exact name, no npm / PyPI / HuggingFace / OpenLibrary presence, no MusicBrainz record under the personal name.

4.1 — Engine visibility per target (this pass)

ENGINE / INDEX	TARGET A - "Zazie Productions"	TARGET B - "Zazie Kanwar-Torge"	STATUS
platform-search-api (opaque composite general engine)	visible, top-10 for exact name	visible, top-10	WORKED
Bandcamp site search	store rank 1; 14 new release URLs	1 track + 1 album	WORKED

4.3 — Discovery ledger: all 20 leads (blocked, broken, duplicate or rejected — none counted as master records)

LEAD ID	LEAD	URL (clickable where known)	STATUS	WHY NOT IN THE MASTER DIRECTORY
ZL26-01	play.reelcrafter.com/z6vU... ("Zazie Productions Reel")	https://play.reelcrafter.com/z6vU_hn4T76AE0kv4rtd9w	broken (404-equivalent, 2026-09-05)	Snippet (both names + contact data, not transcribed) exists only in the search index; page is deleted. Repo baseline already contained the URL.
ZL26-02	linkedin.com/in/zazie-kanwar-torge-3b8a98373	https://linkedin.com/in/zazie-kanwar-torge-3b8a98373	blocked (403)	Name + "Zazie Productions LLC" visible in search snippet/JSON-LD only; URL already in repo.
ZL26-03	reddit r/noisemusic "New label called The Vanishing Point Syndicate"		blocked (403)	Exact string presumed in post body but not visible in snippet -> unverified.
ZL26-04	100subtextsmagazine.blogspot.com Issue 31 feature	https://100subtextsmagazine.blogspot.com	page fetch empty/JS	Name not confirmed on page.
ZL26-05	behance.net/zaziediya	https://behance.net/zaziediya	variant handle, unfetched	Not an exact-name string.
ZL26-06	Visualcontainer press-release PDFs (Summer/Winter 2024)		artifact unparsed	Parent page already carries both names; PDF derivative.
ZL26-07	YouTube channel UCnDTZImCr9MfLF_f7iPav2A (+ video UX2kv3G89Jw)		duplicate cluster (repo domain)	YouTube channel already represented in repo.
ZL26-08	Spotify playlist 75PxWthUYPOskOU1EjGrFX		duplicate cluster (repo domain)	Surfaced on re-verified Groover profile.
ZL26-09	listen.tidal.com/artist/33032080 (Target-B sameAs)	https://listen.tidal.com/artist/33032080	unfetched sameAs	From re-verified Songstats page.
ZL26-10	Discogs "Amnesia (59)" / "Oliver Schoffler" artist pages		context only	No target string.
ZL26-11	Discogs marketplace counts (152 releases / 16 masters)		index counts	Per-release pages out of scope for this pass.
ZL26-12	Ars Electronica Sonic Saturday / MEDIUM SONORUM event pages		rejected: no exact name	Register says 2026 selection (Linz); venue noted for follow-up, not claimed.
ZL26-13...16	Payhip "100subtexts 2" - Bloodborne "Milkweed" - Wikidata La Zizanie - chartsinfrance Zazie interview		rejected: other entity / noise	-
ZL26-17	Discogs "Tole Ache" (SHIPPAI editor credit)		context only	-
ZL26-18	909deadbatteries.bandcamp.com store root	https://909deadbatteries.bandcamp.com	cluster note	No exact name on root.
ZL26-19	slaps.com/ZazieProd vs /user/ZazieProd	https://slaps.com/ZazieProd	duplicate (repo)	Canonical-URL variant of a repo URL.
ZL26-20	MusicBrainz release-search query returning 0		negative result logged	Syntax sensitivity; releases retrieved via the artist entity instead.

4.4 — Method, identity links and follow-up queue

METHOD. Baseline: 437 normalized URLs from the seed registry, the 133 Media Master link annotations and the 278 URIs inside the raw link dump; a candidate counted as "already in repo" only on exact normalized-URL equality (one verified redirect equivalence applied). Discovery layers: general exact-name queries, role/work-title pivots, direct platform searches (Bandcamp, Discogs, MusicBrainz WS2, iTunes API, archive.org advancedsearch, Wikidata, Wikipedia, GitHub, npm, PyPI, HuggingFace, Open Library, Common Crawl collinfo, Wayback CDX), variant queries and old-web site: sweeps. Verification required the exact string in fetched content, a platform API response, a platform index page, or URL+title confirmed on a fetched page — snippets alone produced ledger leads only.

THE TWO PUBLIC IDENTITY STATEMENTS located (the only B-to-A links on the open web): the Pebbles Underground film page — "Director, artist, producer: Zazie Kanwar-Torge (A.K.A Zazie Productions)" — and the IA item *Instructions for Clean Living* — "developed and produced by Zazie Kanwar-Torge, working as Zazie Productions". Both re-opened live on 2026-09-05. Key clusters: Phantom Requiem spans the festival page, the Visualcontainer awards announcement and the IA film item; the aNr124 split spans Bandcamp, Discogs 36415555, the IA arrhythNia label-discography and the SoundBetter credit block; the MusicBrainz artist entity lists the 7 V/A releases; the Bandcamp store root's discography block enumerates the 14 new release URLs.

FOLLOW-UP QUEUE. (1) Reddit r/noisemusic thread — fetch from a residential session. (2) 100Subtexts blogspot Issue-31 feature — JS session. (3) The two Visualcontainer press-release PDFs — parse locally. (4) Experiments on the Witch House — enumerate the Zazie track. (5) Register pivots with no live page found: Ecstatic Feedback II, Drama Recorder Vol. 4, 23SECONDS OV TIME, Poseidon's Dial Tone, Camembert Electrique August comp ("Subduction Choir"), Mountains To Sea Vol. 2, Sonic Saturday 2026 (Linz), EXiS 2026, Dark Descent anthology, Milkweed Poetry Journal, Barb issue 3, The Wrong Biennale catalogue. (6) Tidal artist 33032080 (Target-B sameAs from Songstats). (7) Behance zaziediya (variant handle). (8) Marginalia / DDG / Mojeek / SearXNG re-runs from a browser session.

QC RESIDUAL RISKS (stated by the pass). Bandcamp store-release rows rest on the platform search index plus the fetched 18-release discography block rather than per-page fetches; five IA items rest on full-text index matches pending per-file enumeration; the opaque general-search backend is not engine-attributable and was cross-checked against at least one directly reachable source wherever possible.

5 - MAGAZINE & ZINE FEATURES REGISTRY - PASS OF 2026-09-05

the authoritative editorial-feature inventory: substantial public magazine, zine, journal and periodical features separated from brief mentions and non-editorial records

20 qualified features - 8 Tier-C mentions - 9 unresolved leads

DISCIPLINE. Every Tier A/B entry contains the complete exact target phrase visibly on the destination page, PDF or a verified archive snapshot, and meets the substantial-feature threshold: a dedicated feature, review, interview, profile, contributor page or published work — not a tracklist line, tag page, roster mention or press release. Tier C rows below are verified exact-phrase pages that fall below that threshold; they remain useful for visibility but are not features. Press releases (PRFree), hosted self-publishing (telegra.ph) and podcast rows are non-editorial for this register and live in the master volume under their own categories.

5.1 — Qualified features (Tier A / B)

5.4 — Unresolved magazine / zine leads (high-value exact-string leads that could not yet be verified as qualifying features)

LEAD	TARGET	PUBLICATION / HOST	PAGE TITLE OR SNIPPET	URL (clickable where known)	WHY IT MAY QUALIFY
MZL-001	"Zazie Productions"	Coin-Operated Press - For The Sad Kids Zine (Issue 062, Mar 11 2026)	For The Sad Kids Zine OUT NOW!!! - Announcement: "Inside, you will find emo illustrations, sad kid selfies, punk rock poetry... teenage sketchbook doodles..." + Stunning That You'd Care is claimed per Accomplishment Register	https://coinoperatedpress.wordpress.com/2026/03/11/for-the-sad-kids-zine-out-now/	Zine feature where target is credited author / featured writer - Accomplishment Register says Stunning That You'd Care was "Published March 11 in Coin-Operated Press's For the Sad Kids Zine, including lyrics, background,
MZL-002	"Zazie Kanwar-Torge"	Bipolar Poetry (literary journal, Australia)	The Bell of the Hollow Luxuries - Bipolar Poetry - Published Feb. 7, 2026 (per Accomplishment Register #65)	https://www.pw.org/literary_magazines/bipolar_poetry	Literary journal publication authored by target - would be Tier A (published poem by target) under qualifier: "An essay, article, editorial piece, or published creative writing visibly authored by 'Zazie Kanwar-Torge.'"
MZL-003	"Zazie Kanwar-Torge"	Milkweed Poetry Journal - The Bell of the Hollow Luxuries (again, per Register #66)	Same poem published again in Milkweed Poetry Journal 2026 as separate publication outcome	Unknown canonical - no URL found in searches	Separate literary-journal publication of same work - if verified, would be a second Tier A journal feature (distinct publication).
MZL-004	"Zazie Kanwar-Torge"	Church of Malware - Community Codex Vol. 1 (Summer 2026) - Poison in the Well: Adversarial Audio & Machine Listening (Register #57)	Codex is referenced as indexed by a July Google Alert; churchofmalware.org is live (fetched) but Codex contents page not found.	https://churchofmalware.org/	Magazine/journal/codex essay authored by target - would be Tier A essay in an independent technical/cultural publication.
MZL-005	"Zazie Productions"	Blastbones Zine - Volume II - Ouroborean Sunmouth (Register #61, Selected Jan 29)	Zine issue accepted; not yet published at time of register.	Unknown - blastbones zine site (search: no URL with phrase found)	Zine fiction publication by target - would be Tier A if issue publicly posted with byline.
MZL-006	"Zazie Kanwar-Torge"	Thorn In Your Side - Barb, Issue 3 - Glossolalia Engine / 23-Vector Gospel (Register #67)	Accepted with request for assets; awaiting publication.	Unknown	Literary journal publication - Tier A when published.
MZL-007	"Zazie Productions"	100Subtexts Magazine / Maude Literary Journal for Bipolar Talent / Who Is The Dreamer? - mentioned in bios (castingcall, Slaps, itch.io) as past features	Bio lines: He has been featured on HEAVY Magazine, Ranger Magazine, Superpresent Magazine, Life in Limbo Magazine... 100Subtexts Literary Magazine, ... Maude Literary Journal for Bipolar Talent, Who Is The Dreamer? - A Tribu	No canonical issue page with phrase found; linktr.ee also cites same list without URLs	Magazine/journal features - if verified, each would be Tier A/B.
MZL-008	"Zazie Productions"	HEAVY Magazine - dedicated page (existing in feature table but inaccessible from sandbox this pass) - potential archived version	Title confirmed via Linktree/FilmFreeway: ZAZIE PRODUCTIONS Unleash Eclectic... Heavy Magazine	https://heavymag.com.au/zazie-productions-unleash-eclectic-single-cant-get-my-eyes-off-you-123/	Already a Tier A feature, but verification-limited in this pass - host not resolvable; archive capture not found. If verified via another network or via publisher-provided archive, would move from "Previously documented"
MZL-009	"Zazie Productions"	Grammy Weekly - same situation: feature exists but HTTP 500	https://grammyweekly.com/zazie-productions-the-underground-polymath-redefining-experimental-music/	https://grammyweekly.com/zazie-productions-the-underground-polymath-redefining-experimental-music/	Tier A feature - already counted - but needs re-verification.

5.5 — Duplicate / mirror clusters (one canonical row per feature; mirrors never counted twice)

CLUSTER	CANONICAL URL	DUPLICATE / MIRROR URLS	TYPE	STATUS	NOTES
DUP-001	https://www.imdb.com/name/nm17333332	https://www.imdb.com/name/nm17333332/ https://www.imdb.com/name/nm17333332	Exact duplicate / trailing-slash	Collapsed	Single master record; both variants in seed dump counted once
DUP-002	https://thechurchofnoisygoat.bandcamp.com/album/synthetic-dystopia	https://thechurchofnoisygoat.bandcamp.com/album/synthetic-dystopia?fbclid=IwQ0xDswKgb3tleHRuA2FibQlxMQABHpL0WjXcy2ukM3NEIOxikggYulJUfBnHv76JsrXzy9szuGlt8PVf7KoFQwTK_aem_pmM4TRpPuSuJfWUHGyfUA4Q	Tracking-param duplicate	Collapsed	fbclid param stripped; not a distinct magazine feature
DUP-003	https://loudsilencedigital.bandcamp.com/album/lsd100	https://loudsilencedigital.bandcamp.com/album/lsd100?fbclid=IwZxh0bgNhZw0CMTEAAR3PU1T1BVT98ilQAKfCmmo6Btd_jHLH11ULjUqVLOi9uc4y3KSsY3oCXY_aem_ue-lklpTegFf53H6srfiJQ	Tracking-param duplicate	Collapsed	Not magazine feature; collapsed
DUP-004	https://www.rangermagazine.net/zazie_issue4	https://www.rangermagazine.net/issue4 (issue index entry for same feature)	Issue index vs dedicated page	Clustered - same feature	Canonical is dedicated page /zazie_issue4; issue index is contents listing pointing to canonical
DUP-005	https://www.soundsgoodwebzine.com/zazie-productions-cant-get-my-eyes-off-you-123/	https://www.soundsgoodwebzine.com/tag/zazie-productions/ (tag archive)	Tag vs article	Clustered - tag excluded	Tag is automated mirror of article; only article is Tier A feature
DUP-006	https://allevents.in/event/100001021724965877	https://allevents.in/mobile/amp-event.php?event_id=100001021724965877	AMP vs canonical	Collapsed	Not magazine feature; collapsed in ledger
DUP-007	https://www.rsssearchhub.com/feed/1185189bcc80cd02d670a3aaae58ebf3/city-portland-mercury	https://www.portlandmercury.com/i-anonymous/2024/08/22/47371644/thank-you-to-all-the-tortur	Mirror / RSS scrape	Clustered - mirror excluded	Mirror not counted as distinct editorial feature
DUP-008	https://superpresent.org/wp-content/uploads/2024/06/V4N3-pdf.pdf	https://superpresent.org/current-issue/ (HTML landing for same issue) https://indd.adobe.com/view/a12d7d20-c73e-43c6-9d35-93f19613af14 (Adobe InDesign view)	Same issue different view	Clustered - same feature	HTML landing + Adobe view are same Vol.4 No.3 issue; PDF is canonical feature evidence; not separate features

CLUSTER	CANONICAL URL	DUPLICATE / MIRROR URLS	TYPE	STATUS	NOTES
DUP-009	https://pronthego.com/pages/blog/art-pr-expanding-artistic-reach-through-digital-exhibitions	https://pronthego.com/pages/blog/art-pr-expanding-artistic-reach-through-digital-exhibitions?amp=1&print=1	RSS/AMP/print variants	Collapsed	Not distinct features
DUP-010	https://www.blackmountaincollege.org/broadcast-bmc-radio-artist-zazie-productions/	https://www.blackmountaincollege.org/2021-black-mountain-college-radio-art/ (roster listing pointing to same)	Roster vs dedicated feature	Clustered - dedicated feature is canonical	Roster page lists Zazie among 5 artists; dedicated page is Tier A feature; not duplicate feature

6 - EDITORIAL & LITERARY EVIDENCE LEDGER - PHASE 3

every literary / editorial surface checked in the phase-3 pass, with the exact evidence quote, discovery route and counting decision - sections A (new countable finds), A2 (self-published poetry pages), B (partial / handle-only, not counted), C (register-named publications still unresolved), D (incidental non-editorial profiles)

52 ledger rows

LEDGER	URL (clickable) / TARGET	EXACT EVIDENCE ON PAGE	FOUND ON	PRI	STATUS
A - COUNTED	https://100subtextsmagazine.blogspot.com/2025/03/issue-31feature.html	Editor's feature post (John Hopper), 1 Mar 2025: "In this brand new issue of the literary magazine 100subtexts, we feature the writer, composer, filmmaker Zazie Productions, who brings us a stunning poem: Anchor and Ascend." 7 - WEB-PRESENCE BLIND-SPOT EXPANSION - PASS 11 (2026-09-05)

six blind-spot areas swept beyond keyword search: inbound backlinks, visual surfaces, social, machine-readable entity records, historical / deleted pages, and web archaeology of the spam clusters

32 discoveries - 16 backlinks - 17 entity records - 22 historical - 5 archaeology clusters

HIGHLIGHTS. The **VisualcontainerTV Winter-2024 press-release PDF** (Tier A) names both exact forms and carries the Jury Special Mention plus the February 2025 broadcast. The **deleted PVTV Fringe Flicks April-2025 page was recovered from the Wayback Machine** (Deaf Orphans of Streamcast, Liverpool, 4 Apr 2025 — live page now 404, 6 captures). Eight IMDb title IDs were mapped and the TMDB / IMDb identity split documented. Five Discogs releases missing from the master were added. A legitimate five-post **clongclongmoo.org backlink cluster** was verified as real independent coverage. The BMC / Levinson spam cluster was traced to one unchanged Black Mountain College page (Dec 2021) and characterised as a doorway network via Common Crawl — zero independence, Tier D retained.

7.1 — Discoveries by area

8 - LOW-TRUST QUARANTINE REGISTER - PASS 10 (2026-09-05) + 2026-09-15 ADDITIONS

94 register rows - 85 hosts

every spam / scraper / syndication / SEO-poisoning / text-injection occurrence of the exact strings - an evidence-preservation bucket that is never counted as coverage, credit, profile, release or biography

CHARTER. This register documents contamination, it does not endorse it. Rows are hacked-site doorways (the "Black Mountain College / Ira and Ruth Levinson Museum" injection family), YouTube-mirror and tool-proxy farms built around one video id, auto-generated metadata pages, RSS / PR republishations, paste reposts and fabricated attributions (invented personas and non-existent journals). **Safety protocol:** quarantined compromised hosts were documented from search-index snapshots and Common Crawl only and **never visited directly** — 15 rows carry the DO-NOT-OPEN status for exactly that reason. **Reclassification:** the former "SEO Spam / Link Farm" category and all 38 Tier-D video-mirror rows were folded into this register, together with 16 misfiled rows pulled out of the community / profile / streaming / press categories (including two A-tier PR-republication demotions). Nothing in Tier D ever counts toward totals; the master volume prints these rows last, in the quarantine section, so a reader can see exactly what a search engine may surface — and what needs correcting or reporting.

ENTRY	CLUSTER	SUBTYPE	URL (clickable - do not treat as coverage)	TARGET	ORIGIN	LIVE STATUS	NOTES

13 - USER-SUBMITTED INTAKE PASS - 2026-09-15

9 URLs handed in after the 2026-09-05 baseline. Each was opened, its exact-name evidence read or its inaccessibility recorded: 5 entered the master volume, 3 were already in it, and 1 stayed an unverified lead.

5 new records - 3 re-verified - 1 lead

FIRST BATCH. Two genuinely new records joined the master volume. **60 Secondes Radio — Tableau d'honneur** (Podcasts & Broadcasts, Tier B): the live page was opened and the exact string Zazie Productions-USA read inside the **2025** block of the honor roll, which credits every artist whose one-minute radio-art piece the project has broadcast — 2150 works from 76 countries since 2015. That makes it a broadcast credit, not a directory listing. **Beatport release 5558734** (Streaming & Music Platforms, Tier B): the release page for the 11-artist VA **1 YEAR ANNIVERSARY**, catalogue **ETB085** on The Elements Of Tech & Bass Recordings, released 2025-11-18, with the exact name in the release artist list; the paired artist page resolves the track credit as *Dome Collapse* (Original Mix, Progressive House, 124 BPM, F minor). The compilation itself was already known from Discogs 35696575 and ok.ru, so what is new here is the Beatport surface, the catalogue number and the genre/BPM/key metadata — the underlying credit is not double-counted.

TWO WERE ALREADY IN THE CENSUS and were re-verified rather than re-added. *manicworldmagazine.com/zazie-kanwar-torge* (catalogued 2026-09-04 from Pass 9) is still live with its bio and socials intact. *samples.eduwriter.ai/236649204* (from the original seed link dump) was still sitting at *unverified* with no title and no notes; opening it showed what it actually is — the public "sample paper" library of **eduwriter.ai, a commercial AI essay-writing service**. The page is a one-page user-generated Research Paper brief and body, "Uploaded by ivucoxe60", "Date Posted: 2025-02-06", ending in a "Generate Free Research Paper" call to action. It is now marked verified, titled, and carries a new integrity flag — **AI ESSAY-MILL SAMPLE LIBRARY** — so the score reflects that the page is generated advertising *about* the artist rather than coverage *of* them. It remains Tier C community context, not press.

ONE COULD NOT BE VERIFIED AND IS NOT CLAIMED. *clananalogue.org/artists/zazie-productions* follows the real per-artist URL pattern of the Australian electronic collective Clan Analogue (Sydney, 1992), but the whole site now sits behind an **Anubis proof-of-work anti-bot wall**. Fetching the page and its parent */artists/* index both returned the "Making sure you're not a bot!" challenge; the Wayback CDX API returned an empty array, so there is no capture; and no search engine has the URL indexed. Under the evidence standard the exact string was neither read on the page, nor returned by a structured response, nor confirmed in an index snapshot — all three conditions fail, so it is logged as a lead and does **not** appear in the master volume. Re-test it in a real browser, or look for a Clan Analogue release carrying the credit.

ADDITIONAL BATCH. Four further submitted URLs yielded three new records and one re-verification. **SpaceHey**: Radiator Log - June, 2025 has a Zazie Productions byline; this is self-published creative work, not independent coverage. **Aishwariya's LittLog**: New Anthology Forthcoming explicitly lists Poetry by Zazie Kanwar-Torge in the contents of Anxiety & Depression (ISBN 9798284477878). **TSHN Productions / Bandcamp**: STONEWALL/NOISEWALL volume 1 credits Zazie Productions on track 6, Stalactite of Dead Reckoning (05:01). **Heard** was already catalogued and was re-verified without a duplicate; its listed collaboration claims are not independently corroborated by this intake.

13.1 — Intake ledger: every submitted URL and its verdict

ID	SUBMITTED URL (clickable)	TARGET	VERDICT	EXACT NAME FOUND?	ACTION ON THE MASTER INDEX	ACCESS RESULT
USP-01	https://60secondesradio.com/tableau-dhonneur/	Zazie Productions	NEW RECORD	yes - "Zazie Productions-USA"	added to data/master/master_index.csv	HTTP 200 via fetch_page, full page text read

13.2 — Evidence notes per submission

ID	HOST	PAGE TITLE AS READ	WHAT THE PAGE ACTUALLY IS - EVIDENCE NOTE
USP-01	60secondesradio.com	Tableau d'honneur - 60 Sec Radio	Exact name appears in the **2025** block of the Tableau d'honneur, between "Laurent Georjion-France" and "Alessandro Ciccarelli-Italie". Page header: "60 SECONDES RADIO 2015-2026 - 2150 SONORES EN PROVENANCE DE 76 PAYS". Corroborated by third-party descriptions of the project (radiopanik.org, radioart.zone): a Canadian short-form radio-art call that began in 2015 inside a Montreal student radio and now accepts only works of exactly one minute. Same page is also served at 60secondesradio.com/index.php/tableau-dhonneur (search-index variant, collapsed).
USP-02	samples.eduwriter.ai	Sonic Absurdity and Cognitive Dissonance: How Zazie Productions is Pioneering Psychoacoustic Experiments in Outsider Art and Comedy	NOT editorial coverage. samples.eduwriter.ai is the public "sample paper" library of eduwriter.ai, a commercial AI essay-writing service ("Generate Free Research Paper", "TurnItIn-proof & original"). The page is a 1-page user-generated Research Paper brief plus body, "Uploaded by ivucoxe60", "Date Posted: 2025-02-06 18:33:42", one reference (Altintzoglou 2018). Recorded as evidence the name circulates as essay-mill / SEO bait, not as third-party recognition. New integrity flag added to the credibility overlay: AI ESSAY-MILL SAMPLE LIBRARY (-20).
USP-03	clananalogue.org	(unreachable - "Making sure you're not a bot!")	clananalogue.org is the Australian electronic-music collective/label founded in Sydney in 1992, and it does host one page per artist at /artists/<slug>/ (e.g. /artists/zaziz/ is indexed and readable). The submitted slug follows that pattern, but the whole site now sits behind an Anubis proof-of-work challenge, so the exact-name string could not be read on the page, no structured API or index response returned it, and no search-index snapshot of this URL exists. Under the Pass-7 evidence standard none of the three qualifying conditions is met, so this is logged as a lead. Re-test with a real browser, or check whether Clan Analogue has a release carrying the credit.
USP-04	beatport.com	1 YEAR ANNIVERSARY [The Elements Of Tech & Bass Recordings] Beatport	Beatport release page (PT locale) for the 11-artist VA release "1 YEAR ANNIVERSARY": catalogue ETB085, label The Elements Of Tech & Bass Recordings, release date 2025-11-18, \$8.99. Zazie Productions is named in the release artist list (Beatport artist id 1440962). The paired artist page (/artist/zazie-productions/1440962/tracks) resolves the actual track credit: "Dome Collapse" Original Mix, The Elements Of Tech & Bass Recordings, Progressive House, 124 BPM, F Minor, released 2025-11-18. That track/compilation pairing was already known from Discogs release 35696575 and ok.ru album 123001281196995 in listen_links.csv; this adds the Beatport release URL, the ETB085 catalogue number and the genre/BPM/key metadata.
USP-05	manicworldmagazine.com	Zazie Kanwar-Torge - Manic World Magazine	Dedicated artist profile, previously verified 2026-09-04, still live 2026-09-15. Bio opens: "Zazie Kanwar-Torge, professionally known as Zazie Productions, is a multidisciplinary artist whose work spans experimental fiction, sound design, and conceptual media." Socials block links x.com/zazieoverlord and linktr.ee/zazieproductions. Carries the work page "The Hour Collapses Inward" (already catalogued separately). No change to tier or category.
USP-06	blog.spacehey.com	Radiator Log - June, 2025 - Zazie Productions's Blog SpaceHey	Exact-name byline: Published by Zazie Productions. Self-published creative blog entry titled Radiator Log - June, 2025; counts as an artist-controlled presence, not independent editorial coverage.
USP-07	aishwariyalaxmi.com	New Anthology Forthcoming - Aishwariya's LittLog	Post by Aishwariya Laxmi dated June 11, 2025 reproduces the contents for Anxiety & Depression, compiled by Robin Barratt (Poetry for Mental Health series, seventh volume; ISBN 9798284477878). Contents explicitly list Poetry by Zazie Kanwar-Torge. Contributor-blog announcement, not a dedicated review or independent confirmation of publication completion.
USP-08	getheard.fm	Zazie Productions - Music Producer contact & submission info - Heard	Re-verified 2026-09-15: exact name in page title. Public producer/contact directory page displays a SoundBetter excerpt, services and claimed credits. Contact details are membership-gated. Verifies the listing, not independent corroboration of its biographical or collaboration claims.
USP-09	tshnproductions.bandcamp.com	STONEWALL/NOISEWALL volume 1 TSHN Productions	Label-hosted Bandcamp compilation page explicitly credits track 6: Zazie Productions - Stalactite of Dead Reckoning (05:01). Direct release/track-list evidence; album URL counted once. Linked track URL not separately added in this intake.

Linked track URL not separately added in this intake.	live

13.4 — Lead not counted (fails all three Pass-7 evidence conditions — logged, never promoted to a record)

LEAD ID	LEAD	URL (clickable)	STATUS	WHY IT IS NOT IN THE MASTER DIRECTORY	COUNTS?
USPL-01	clananalogue.org/artists/zazie-productions/ (Clan Analogue artist page, Australian electronic collective/label, Sydney 1992)	https://www.clananalogue.org/artists/zazie-productions/	blocked (Anubis proof-of-work anti-bot wall, 2026-09-15)	Page body could not be read: the challenge page was returned for this URL and for the parent /artists/ index; Wayback CDX returned zero captures; the URL is absent from search indexes. Exact-name string therefore never observed on the page, in a structured response, or in an index snapshot - fails all three Pass-7 evidence conditions.	NO

13.5 — Duplicate and tracking-parameter collapse (what was folded rather than counted twice)

CLUSTER	CANONICAL URL (clickable)	VARIANTS SEEN	TYPE	TREATMENT	NOTES
DUP-011	https://60secondesradio.com/tableau-dhonneur/	https://60secondesradio.com/index.php/tableau-dhonneur	Same page, two URL forms (pretty-permalink vs index.php)	Collapsed	Identical Tableau d'honneur content; only the pretty URL is counted as a master record
DUP-012	https://www.beatport.com/pt/release/1-year-anniversary/5558734	submitted form carried ?srsltid=AU7gw4Wpg3vR1C94r0BhDiFd dV7ZYJ3YUnT6VRhPYJK60sNnK71_8QAC	Tracking-param duplicate	Collapsed	srsltid session/tracking parameter stripped before recording
DUP-013	https://www.beatport.com/pt/release/1-year-anniversary/5558734	https://www.beatport.com/artist/zazie-productions/1440962/tracks (already in master_index) https://www.discogs.com/release/35696575-Various-1-Year-Anniversary https://ok.ru/music/album/123001281196995	Same release, four platform surfaces	Kept separate - distinct platform records	The Beatport release page and the Beatport artist page are different pages on the same platform and both are held; the Discogs and ok.ru rows were already catalogued via listen_links.csv. No double-count of the underlying credit.
DUP-014	https://samples.eduwriter.ai/236649204/sonic-absurdity-and-cognitive-dissonance-how-zazie	(already catalogued from the seed link dump)	Resubmission of a known URL	Collapsed	No new row; existing row re-verified and enriched
DUP-015	https://manicworldmagazine.com/zazie-kanwar-torge/	(already catalogued from Pass 9, searx.ononoki.org)	Resubmission of a known URL	Collapsed	No new row; existing row re-verified
DUP-016	https://getheard.fm/producers/zazie-productions	already catalogued from regional alternative engine pass (2026-09-05)	Resubmission of a known URL	Collapsed	No new row; existing Heard producer profile re-verified and evidence caveat added.

ONE INTEGRITY FIX CAME OUT OF THIS PASS. Credibility flagging matched the bare pattern x.com anywhere in a record's text, so any host ending in the letters "x.com" — kunstmatrix.com, musicstax.com, kkbox.com, ivoox.com, bandmix.com, thepromptindex.com — was wrongly stamped **SOCIAL / FORUM MENTION** and docked six points. The pattern now requires a real host boundary. Across the volume the flag drops from **41 records to 30**; eleven records lose a flag they should never have carried, and no genuine x.com / twitter.com surface loses its flag.

14 - SECOND USER-SUPPLIED BACKLINK PASS - 2026-09-15

ten URLs handed to the census by its owner: every one fetched and tested against the Pass-7 exact-name rule, the five discoveries they led to, and the four master rows the pass corrected or refreshed

15 ledger rows - 17 fetches logged

WHAT THIS PASS IS. This is the second batch the census owner handed in on 2026-09-15 — section 13 reports the first five. Ten more URLs were opened directly on 2026-09-15 and read against the same rulebook every other pass used: the exact strings Zazie Kanwar-Torge and Zazie Productions must be rendered on the page; a no-space or en-dash variant is a pass used: the exact strings Zazie Kanwar-Torge and Zazie Productions must be rendered on the page; a no-space or en-dash variant is a *lead*, never a record. Two of the ten were already in the master index (the Film-Makers' Co-op screening and the Swinewomb ticket page) and were corrected in place instead of being counted twice; the remaining eight produced new records, and following the links those pages themselves offered produced five more — the Gaana "Zazie Productions" persona, the exibart Pebbles Underground event page, the Clan Analogue track page, the Japanese edition of the MyWebAR article and the ArtFacts exhibition record.

WHAT IT CHANGED. 13 new records entered the master volume, four existing rows were updated (the Film-Makers' Co-op screening promoted from *unverified* to *verified*, the ArtFacts artist record promoted to *verified-partial* with its ranking and exhibition data, and fresh re-check notes on the Swinewomb ticket page and the LinkedIn profile), and one listen link was added for the new Clan Analogue compilation. Two of the new rows are deliberately carried as leads: the English MyWebAR article prints the name with an en dash, and the ArtFacts analytics and exhibition pages either render a lower-case "Kanwar-torge" or hide the roster behind a login — the census rules do not accept either form as evidence.

THE ONE GENUINELY NEW PLACEMENT. Clan Analogue's *Stories From the Field* (released 11 September 2026) is the first catalogued credit nothing else in the census had seen: no register entry, no index row, no search pass surfaced it. The album page credits "Zazie Productions - Appliance Suite in D minor"; the track page adds "Written and produced by Zazie Kanwar-Torge" and a signed note on the appliances sampled.

14.1 — Submission ledger (one row per URL: how it was found, what the page says, and whether it is a new record or an update to a row the census already held)

2026-09-15	https://www.clananalogue.org/featured/record-your-stories-from-the-field/	open-submission call for the same compilation (lead check)	no exact name on the call page	No	negative	

14.4 — Master rows corrected or refreshed by the pass (no new record; the URL was already in the census and the pass changed what the census knows about it)

MASTER ROW (clickable)	WHAT THE 2026-09-15 PASS CHANGED
https://film-makerscoop.com/screenings/films-for-freedom-presented-by-the-film-makers-cooperative-a	status unverified -> verified; target corrected to the name the page prints (Zazie Kanwar-Torge); date, title and the screening detail added - the featured-filmmaker list of 100+ artists carries the exact string, and the row now matches the register's Films for Freedom entry as verified evidence.
https://www.tickettailor.com/events/motherof/2336870	re-checked and still verified; the run has moved to September 2026 as "SWINEWOMB SECOND COMING" while the Creative Team block still reads "Composer - Zazie Kanwar-Torge" (register entry 50).
https://artfacts.net/artist/zazie-kanwar-torge	status unverified -> verified-partial; the record is live and carries ranking Top 1,000,000 Global with one verified group exhibition (Muslab 2025, Quito, 24-28 Nov 2025). It stays lead-grade because the name renders with a lower-case "t".
https://www.linkedin.com/in/zazie-kanwar-torge-3b8a98373/	cross-reference only - the MyWebAR roundup (March 2026) links this exact URL as the artist's profile; the profile itself was not re-opened, so the row keeps its unverified status.

14.5 — Rule calls made during the pass

RULE	HOW IT WAS APPLIED ON 2026-09-15
Exact-name rule (Pass 7)	Accepted: "Zazie Kanwar-Torge" and "Zazie Productions" read on the fetched page. Rejected as evidence, kept as leads: the en-dash form on mywebar.com and the lower-case "Kanwar-torge" form on artfacts.net.
Duplicate handling	Two submitted URLs (Film-Makers' Co-op, Ticket Tailor) already had rows; they were updated in place rather than counted twice, and both are marked DUPLICATE in the ledger.
URL normalisation	The Standaard Boekhandel URL was submitted with filter/sort parameters; the record is carried at its canonical contributor URL, with the submitted string preserved in the SubmittedURL column of the ledger.
Localised editions	mywebar.com (en dash) and jp.mywebar.com (hyphen) are one placement on two editions: the countable row is the Japanese one, the English one is filed as its lead.
Auto-generated metadata flag	Gaana (unfilled {language} template placeholder) and Flickchart (TMDB-built filmography) were added to the repository's AUTO-GENERATED METADATA integrity rule, so both rows carry the flag in the master volume.
No-count probes	One follow-up (the Clan Analogue open-submission call) was logged in the access log with its URL in the ProbeURL column, because it carries no exact name and must not become a record.

15 - PROJECT-SECTION PASS - GROUPING THE CENSUS BY PROJECT

the master volume prints the census by media type, which scatters one project across many sections. This pass re-cuts the same records by the thing they are actually about - one section per commission, compilation, anthology, film, exhibition or press wave - using a curated, auditable rule register

102 multi-link projects - 402 links organised

WHY THE PASS EXISTS. The Black Mountain College commission alone sits in four different media-type sections (Press & Editorial, Podcasts & Broadcasts, Community/Wiki and the quarantine bucket), and a compilation appearance is split across a label page, a Discogs release, an archive copy, a netlabel news repost and a lyric database. That is the correct shape for a media-type directory and the wrong shape for a reader who wants one thing. This pass adds the missing cut: every link about the same real-world thing, in one place, ordered by what the link *is* in that project — its own page first, scraped copies last.

RULE REGISTER, NOT A HEURISTIC. Matching is driven by `registry/project_sections/projects.csv` and executed by `scripts/build_project_sections.py`. Each register row carries the project name, its kind, the artist credit, explicit aliases, exclusions, the hosts that count as the project's own page or as its press, and — where a page is stored in the census with a truncated URL — an explicit URL pin. A link joins a project only when one of those rules fires: an alias string found in the URL or title, a documented URL pin, or, for a small number of hosts whose titles never name the project, a phrase in the record's evidence note. No fuzzy similarity, no machine guessing: every membership can be traced back to one register line and re-checked by hand. Compilations that appear in the listen-link table are also given a project row automatically, pinned to the Discogs release and listen URL recorded there, so a compilation whose pages never print its own name in a title still collects its own links.

15.1 — The role vocabulary — how a link is described inside its project, and the order the groups are printed in (the PDF uses the same labels and colours)

#	ROLE GROUP	WHAT THE GROUP MEANS	LINKS
	PROJECT PAGE	the project's own home: label page, publisher page, broadcaster page, festival page, register entry	122
	ARTIST CREDIT	the artist's own page for the work - a release, track, book, score or tool carrying the credit	8
	CATALOGUE RECORD	database records of the same project: Discogs, IMDb, RateYourMusic, Beatport, lyrics and metadata DBs	69
	DISTRIBUTION / LISTEN	platform mirrors that carry the same project: streaming services, podcast directories, retail listings	20
	MEDIA / EMBED	the project itself as audio/video: official uploads, trailers, screeners, embeds	4
	PRESS & REVIEWS	independent coverage OF this project: features, reviews, interviews, news items	33
	EVENT / SCREENING	listings, tickets, screening and performance pages for the project	9
	REFERENCE / DIRECTORY	wikis, community pages, profiles and directories that describe the project	44
	MIRROR / SYNDICATION	legitimate-but-derived copies: netlabel news reposts, archive.org copies, aggregator mirrors	19
	ARCHIVE SNAPSHOT	Wayback / archive captures of a page that also exists live	3
	QUARANTINE - DO NOT CITE	scraped clones, SEO doorways and syndication spam carrying the project - evidence of contamination only	71

15.2 — Every project section, largest first — the same table the master volume prints as PART I, with the project's own starting page and its role mix

15.4 — What the pass deliberately does not do — limits a reader should know before quoting any project count

NO RECORD CHANGES. The project view changes no tier, no status and no credibility score; it is a second index over the same 755 records, and the master volume's media-type sections remain the authority on each link.

LINKS WITHOUT A PROJECT (348). These describe the artist rather than one project: platform profiles, streaming and catalogue pages, the artist's own Bandcamp catalogue, artist-level press, community, quiz and chart pages, and the metadata scrapers that assemble an artist page from a name. Forcing them into a project would have made the sections less true, so they are left out and remain fully visible in the media-type sections and Appendix A.

LINKS IN SEVERAL PROJECTS (13). A screening programme and the film it carried, a magazine feature and the issue it ran in, a press wave and the release that caused it: a link can honestly belong to more than one project. Each occurrence keeps its own role in its own section, and Appendix A still prints each URL exactly once.

QUARANTINED ROWS STAY QUARANTINED. Scraped clones, embed farms and SEO doorways are grouped last inside the project they copy, under their own role band, and are never treated as coverage. Grouping them by project makes the contamination pattern visible — the Phantom Requiem section shows at a glance that roughly thirty proxy players exist around a single video ID — which is exactly the material a takedown or correction request needs.

MAINTENANCE. The register is the human-editable surface: adding a project, an alias or an exclusion means editing one CSV row and re-running the build. The pass prints its own curation backlog — which hosts with two or more links are still outside every project — so the register can be extended deliberately rather than guessed at.

16 - USER-SUBMITTED LINK BATCH - 2026-09-15 (THIRD BATCH)

nine reader-found URLs plus three adjacent surfaces they led to - every one opened, exact-name checked and dispositioned the same day; the third and largest batch handed in on 2026-09-15

11 URLs dispositioned - 12 fetches logged - 4 leads queued

WHAT HAPPENED. On 2026-09-15 the operator handed over seven new links, followed the same day by an eighth — all opened on arrival, plus the three adjacent surfaces they immediately revealed (the Kinorium person page, the chilimovie crew page, and the Ars Electronica MEDIUM SONORUM concert page). **Result: 11 records, 1 quarantine, 4 leads.** The headline finds: **a work-level Ars Electronica Festival 2026 credit** — "Zazie Productions [Zazie Kanwar-Torge (US)]" performing *Slippage Beyond The Hyperlink* (2026, 2:15 min) in the MEDIUM SONORUM closing concert, Sonic Lab 20.4 system, Anton Bruckner University Linz (Tier A x2 — it resolves max-depth lead ZL26-12 and corroborates Accomplishment Register entry #20, now linked in §9); a dedicated Art Squat artist interview (Tier A press feature, both exact names, byline Johnny Otto, 2025); **a new film credit** — composer on *The Haunted* (2026) in the Kinorium database, whose person page also documents Peregrinus (TV, 2026—), Pothole (2025) and Choleric (post-production); and a live, on-page upgrade of the Lynne Sachs "Films for Freedom" mention from search-snippet evidence to rendered text. The chilimovie pair are TMDB-scraper replicas — the Expire (2025) sound-designer credit is recorded as real, the surface kept at Tier C with the UNOFFICIAL FILM MIRROR flag. RaveDJ is an auto-generated mixtape page; LightAudio a licensed RU streaming mirror showing six exact-name tracks; MuzJam an unlicensed free-download index — the one quarantine of the batch (PIRATE-SCRAPE, Tier D). Quarantine-register rows LT-090...LT-094 record every borderline call.

17 - USER-SUBMITTED LINK - 2026-09-24 (CASTRO EPISODE PAGE)

one podcast-player page handed in by the census owner: opened, exact-name checked and filed under the BMC Radio Art commission it belongs to - a new host for the census, not a new credit

1 URL dispositioned - 2 fetch attempts logged - 3 leads queued

WHAT HAPPENED. On 2026-09-24 the census owner handed in one more link, `castro.fm/episode/6w8RTd`. It is the **Castro** podcast player's page for the episode *BMC Radio Art: Zazie Productions - Cheaper Impressions of Black Mountain College Radio*, the podcast of the Black Mountain College Museum + Arts Center (15 December 2021, 4 min). Both census names render on the page — *Zazie Productions* in the episode title, *Zazie Kanwar-Torge* in the artist bio of the show notes — so it clears the Pass-7 exact-name rule on its own. **Result: 1 new record** (Podcasts & Broadcasts, Tier B, live), filed in PART I under **BMC RADIO ART** with the role *distribution*: the commission section now holds 23 links, 9 of them platform copies of the same broadcast. What is new is the host, not the credit — the commission was already counted through the museum's announcement page, and this episode was already catalogued on Apple Podcasts, SoundCloud, iVoox, podcast365.ro and Listen Notes (17.2). `castro.fm` had no entry in the project host table, which would have filed it as a generic *reference* page; it now sits with the other podcast directories as *distribution*.

HOW IT WAS READ. The sandbox shell could not reach `castro.fm` at all (TLS handshake reset — the same reset hit `bing.com` while `github.com` and `pypi.org` answered), so the page was read through the `fetch_page` tool; both attempts are in the fetch log (17.4). The show-level pages the episode links to — the Castro, Pocket Casts and Overcast pages for the whole podcast — were not opened and are queued as leads (17.3); leads never count as records.

17.1 — Submission ledger: verdict per URL (cross-registered: DUP-017 · project bmc-radio)

ID	PAGE	URL (clickable)	NAME AS THE PAGE RENDERS IT	CATEGORY	TIER	LIVE	PROJECT / ROLE	NOVELTY - VERDICT / EVIDENCE
USB24-01	BMC Radio Art: Zazie Productions - Cheaper Impressions - Black Mountain College Radio	https://castro.fm/episode/6w8RTd	"Zazie Productions" in the episode title; "Zazie Kanwar-Torge (they/them)" in the show notes	Podcasts & Broadcasts	B	LIVE	bmc-radio (role: distribution)	new host - first <code>castro.fm</code> page in the census; the episode and the commission were already catalogued (DUP-017). Castro (podcast player) episode page for Black Mountain College Radio, the podcast of the Black Mountain College Museum + Arts Center: "BMC Radio Art: Zazie Productions - Cheaper Impressions", December 15, 2021, 4 minutes. The show notes describe the piece (Erik Satie's <i>Gymnopedie No. 1</i> reworked with musique concrete techniques, in tribute to John Cage's "Cheap Imitation") and carry the bio "Zazie Kanwar-Torge (they/them) is a composer and multi-instrumentalist living in Asheville, North Carolina...". Its Listen-on buttons point at Apple Podcasts feed id 1538618362, the id of the Apple episode record already in the census. Filed under the BMC RADIO ART project as a distribution surface.

17.2 — The same episode across the census (why the Castro page is its own record but not a second credit)

CLUSTER	NEW URL (clickable)	SAME-EPISODE SURFACES ALREADY CATALOGUED (clickable)	TYPE	TREATMENT	NOTES
DUP-017	https://castro.fm/episode/6w8RTd	https://soundcloud.com/bmcmuseum/bmc-radio-art-zazie-productions-cheaper-impressions https://podcasts.apple.com/au/podcast/bmc-radio-art-zazie-productions-cheaper-impressions/id1538618362?i=1000545099810 https://www.ivoox.com/en/bmc-radio-art-zazie-productions-cheaper-impressions-audios-mp3_rf_122698439_1.html https://podcast365.ro/episode/black-mountain-college-radio/bmc-radio-art-zazie-productions-cheaper-impressions-XCIxLKgUQq https://www.listennotes.com/podcasts/black-mountain/bmc-radio-art-zazie-atrx8jsp-6h (all already in <code>master_index</code>)	Same episode, several platform surfaces	Kept separate - distinct platform records	<code>castro.fm</code> is a new host and a distinct page (Castro's own episode page, with its own rendering of the show notes), so it is held as its own record - exactly as the other directory copies of this episode are. The underlying credit, the BMC Radio Art commission "Cheaper Impressions", is counted once through the museum's announcement page (<code>blackmountaincollege.org</code>) and is not double-counted. What ties the surfaces together: the Castro page's Listen-on-Apple-Podcasts button targets feed id 1538618362, the id in the Apple Podcasts record's URL; episode title, date and show notes match the Listen Notes copy.

17.3 — Adjacent leads queued for a later pass (seen on the Castro page, not opened — leads never count as records)

LEAD	URL (clickable)	WHAT IT IS	STATUS	WHY NOT YET A RECORD	NEXT ACTION
USL24-01	https://castro.fm/share/podcast/7597da06-be58-4198-afef-7bb286e158e3	Castro show page - Black Mountain College Radio (the podcast this episode belongs to)	not opened	show-level page; its episode list was not read this pass, so the exact name has not been observed on it	open; record as a Podcasts & Broadcasts distribution row only if the episode title renders the exact name
USL24-02	http://pca.st/itunes/1538618362	Pocket Casts - Black Mountain College Radio (Listen-on button, Apple feed id 1538618362)	not opened	same	same

17.4 — Fetch log (every attempt on 2026-09-24, including the route that failed)

UTC TIME	URL (clickable)	METHOD	HTTP	EXACT STRING CONFIRMED	ERROR NOTES	RESULT
2026-09-24T04:25:00	https://castro.fm/episode/6w8RTd	<code>fetch_page</code>	200	Yes - "Zazie Productions" (episode title) + "Zazie Kanwar-Torge" (show notes)		LIVE

UTC TIME	URL (clickable)	METHOD	HTTP	EXACT STRING CONFIRMED	ERROR NOTES	RESULT
2026-09-24T04:25:00	https://castro.fm/episode/6w8RTd	curl (sandbox shell)	000	n/a - no response	TLS handshake reset (curl exit 35, SSL_ERROR_SYSCALL). The same reset hit bing.com and the castro.fm homepage from this sandbox while github.com and pypi.org answered 200: a sandbox egress limit, not a property of castro.fm . The evidence rests on the <code>fetch_page</code> read above.	UNREACHABLE

ONE PIPELINE FIX CAME OUT OF THIS PASS. `scripts/ingest_all_links.py` harvests every CSV under `data/` — and since the project pass (§15) was added, that included the pass's own output, `data/master/project_clusters.csv`. Every rebuild after the first therefore fed the project pass back into the census: a baseline rebuild with *no* data change promoted 66 records from unverified to verified (the harvester reads any status cell containing "verified" as verified — "unverified" included), injected 161 dates, changed 276 credibility scores and moved 695 ranks, none of it backed by evidence. The derived file is now excluded from the ingest. With the fix a rebuild reproduces the committed census byte-for-byte and is idempotent, so the only change this pass makes to the master data is the one new record and the one-place rank shift it causes for the records below it.

A - APPENDIX - TOOLS, ENDPOINTS & QUERY TEMPLATES

every search endpoint, API probe, archive lookup and research tool the census used - method artefacts, not media records; reproduced so the census can be re-run exactly

73 logged endpoints

TOOL / TEMPLATE URL (clickable)	ROLE IN THE CENSUS
