

ZAZIE PRODUCTIONS · ZAZIE KANWAR-TORGE

Colour-Coded Master Directory of Media Features, Press, Film, Publications, Credits, Profiles, Mentions & Quarantined Links

Every catalogued public-web link in one ranked volume — most reputable and impressive first, most spammy last

Includes five headline reading paths: P1 NETLABEL + COMPILATIONS · P2 MAGAZINES / ZINES · P3 NEWS & MEDIA · P4 EXHIBITIONS & GALLERIES · P5 LITERARY & WRITING

725	725	14	14	386	121	116	169
links in the directory	unique URLs	media-type sections	subject topics	domains	tier A - strongest	tier D - quarantine	live / verified

SECTION MAP — media type, from the most impressive kind of placement to the least trustworthy

the section order itself is the credibility ladder; rows inside each section are re-ranked individually

	SECTION	LINKS	TIER SPLIT	WHAT BELONGS HERE
P	Press & Editorial	95	A 60 · B 11 · C 24 · D 0	Independent magazines, webzines, journals and news coverage: dedicated features, reviews and interviews where the artist is the subject.
P	Publications & Recognition	24	A 13 · B 5 · C 6 · D 0	Awards, honours, contest placements, institutional credit roll-pages and published writing carrying the exact name.
F	Film, Festivals & Exhibitions	52	A 32 · B 16 · C 4 · D 0	Festival selections and award citations, exhibition pages, screening listings and film-credit records.
P	Podcasts & Broadcasts	6	A 5 · B 1 · C 0 · D 0	Radio broadcasts, podcast episodes and show notes where the name is spoken or printed.
P	Profiles & Catalogs	105	A 5 · B 71 · C 29 · D 0	Artist, composer and professional profiles on industry, creative and database platforms.
M	Music Discography	1	A 0 · B 0 · C 1 · D 0	Catalogue and discography database records (label, master and release pages).
S	Streaming & Music Platforms	54	A 0 · B 45 · C 9 · D 0	Artist pages on streaming services, music-identification apps and audio catalogues.
L	Lyrics & Music Databases	1	A 0 · B 0 · C 1 · D 0	Lyrics and music-metadata database entries.
M	Music Compilations	159	A 0 · B 7 · C 152 · D 0	Compilation, netlabel and split-release appearances: one row per public listing of the credit.
O	Official Properties & Channels	50	A 6 · B 31 · C 13 · D 0	Artist-owned storefronts, channels, repositories and self-published pages. Presence proves the account exists, not third-party recognition.
C	Community, Wiki & Fan Indexes	54	A 0 · B 5 · C 49 · D 0	Wikis, fan lists, forums, quizzes, charts and community-maintained pages.
S	Search-Engine Index	3	A 0 · B 0 · C 3 · D 0	Search-engine and index surfaces holding the exact name, including redirect artefacts.
V	Video Mirror / Backlink Sites	5	A 0 · B 1 · C 4 · D 0	Video-proxy and embed surfaces that still read as ordinary listings.
S	Spam, Scraper, Syndication, SEO-Poisoning & Low-Trust	116	A 0 · B 0 · C 0 · D 116	QUARANTINE. Hacked-site doorways, scraped clones, auto-generated metadata, paste reposts and mirror farms. Recorded to document contamination and to s...

WHAT THIS IS. One volume holding every public-web location where the exact names *Zazie Productions* or *Zazie Kanwar-Torge* are indexed, credited, quoted, embedded or linked — press, film and festival records, publications and honours, platform profiles, streaming and catalogue pages, every compilation credit, the artist's own channels, community pages, and finally the quarantined spam, scraper and SEO-poisoning material that has been attached to the name.

THE LADDER. Section order is the credibility ladder: independent editorial press at the top, recognition and film next, then industry and platform records, then compilations and community surfaces, with embed farms, auto-generated mirrors and hacked-site doorways at the very end. Inside each section, rows are re-ranked by a 0-100 credibility index shown on a coloured cell.

WHY THE SPAM IS PRINTED AT ALL. Quarantined rows are evidence of contamination: they are what a reader may find on search engines, and what needs correcting or reporting. They are included with their URLs so nothing is hidden, and marked so nothing can be mistaken for coverage.

HOW TO READ THIS VOLUME

colour is data: each cell colour encodes one ranked dimension of the record

TIER	MEANING	COUNT	WHERE IT SITS IN THE VOLUME
	A · verified institutional or independent-press record	121 links	top of the volume: institutional, award and independent-editorial records
	B · supporting platform, catalogue or trade record	193 links	trade, catalogue and platform records that support the story
	C · community, compilation or self-published context	295 links	bulk context: compilations, community pages, self-published surfaces
	D · quarantined: spam, scraper, syndication or poisoned	116 links	printed last, in the quarantine section only

CREDIBILITY INDEX — one number per row, printed on a coloured cell: 80+ deep green · 62-79 light green · 45-61 amber · 28-44 orange · under 28 red

95+	85+	75+	65+	55+	45+	35+	25+	15+	5+
------------	------------	------------	------------	------------	------------	------------	------------	------------	-----------

STATUS CHIPS — printed in the last column of every row

STATUS CHIP	WHAT THE STATUS MEANS	N
LIVE	page opened during the census and the exact string was seen on it	162
IDX-OK	the name still renders inside a search-index snapshot of the page	7
PARTIAL	page reached, but the exact string only appears in a module, list or caption	6
UNCHECKED	recorded from a repository file; not opened during the most recent pass	526
DO-NOT-OPEN	quarantined compromised host — kept as evidence, never fetched	15
BROKEN	resolved and found dead (404 / parked / removed)	9
LEAD	lead only: not counted as a record anywhere in this volume	0

INTEGRITY FLAG (printed in red inside the row)	N	WHY THE ROW IS MARKED DOWN
EMBED / BACKLINK FARM	67	proxy player built to farm a backlink to one video
AUTO-GENERATED METADATA	55	algorithmically built artist/metadata page, not curated coverage
PASTE / SELF-SERVE HOSTING	42	anonymous paste or self-serve page: provenance not established
SOCIAL / FORUM MENTION	40	social or forum mention: reach without editorial review
UNOFFICIAL FILM MIRROR	38	scraper/streamer replica of the same festival or TMDb record, not a separate placement
USER-GENERATED LIST / QUIZ / CHART	35	community list, quiz or chart: mentions rather than journalism
PAY-TO-PLAY CREDITS MERCHANT	24	paid listing / cred-marketing platform: listing purchased, not awarded
SELF-PUBLISHED PROPERTY	22	artist- or collective-owned surface: proves existence, not third-party recognition
PAY-TO-PLAY PR WIRE	20	self-issued press-release distribution, not independent editorial
SEO DOORWAY ON HIJACKED SITE	19	injected doorway on a compromised, unrelated site using the name as bait
SCRAPE / MIRRORED MUSIC DATABASE	12	auto-mirrored database entry or AI-listing clone
WIKI MIRROR	8	machine mirror of a Wikipedia list page — the underlying record is the article itself
ARCHIVE SNAPSHOT	7	archival snapshot of a primary record, not an independent placement

DASHBOARD — what the census actually contains

all counts are of unique URLs after de-duplication, truncation-collapse and quarantine re-bucketing

SECTION	LINKS	TIER A	LIVE	HOSTS	CRED hi / lo

PATH P2 · MAGAZINE / ZINE FEATURES

Dedicated features, reviews, interviews and profiles about the artist in independent magazines, zines and journals — the Phase-4 magazine/zine census pass united with every major press feature on record.

62 links · A 31 · B 9 · C 21 · D 1 · live 16

complete ranked cut for this theme — most reputable and impressive first. The bold number is the position inside this path; the small *vol* number under it is the row's rank in the whole volume; CRED is the 0-100 credibility index. Full evidence rows for these links: §1 **Press & Editorial** (page 34); quarantined rows are expanded again by domain in Appendix C.

APPENDIX D — HOW THIS VOLUME WAS BUILT, AND WHAT IT DOES NOT CLAIM

read this before quoting any number in the directory

SCOPE. One row per unique public-web URL on which the exact strings *Zazie Productions* or *Zazie Kanwar-Torge* were observed or recorded by the census. Repository-wide inclusion rule: a handle without the space, the French singer Zazie, Zazie Films or any other same-name entity is **not** a record; variant spellings are kept only where the source itself prints the exact string.

SOURCES MERGED FOR THIS PDF. 19 source files contributed: the curated data/master/master_index.csv (authoritative tier, category, status, date, notes), the structured sources/Zazie_Media_Master.pdf table rows (priority, publication, headline, exact-name field), the raw sources/Random_Zazie_Productions_links.pdf annotations and text lines, the 2026 Accomplishment Register docx hyperlinks, the low-trust quarantine ledger, the magazine/zine feature directory, the regional and alt-engine pass, the max-depth pass and the web-presence expansion registries (all machine-readable CSV under registry/). URLs that a registry had truncated for display were folded back into their full form rather than counted twice.

RANKING. credibility = 46 + tier weight (A 42 / B 26 / C 10 / D -34) + section weight + host-authority weight + verification-status weight + exact-name-target weight - integrity-flag penalties, then min-max mapped onto 0-100 for the coloured cell. Sections run in credibility-ladder order (independent editorial press first, quarantine last) and rows inside every section are re-ranked by the same score, so the volume reads top-down from most impressive to most spammy.

QUARANTINE. Tier D rows come from the repository's own low-trust register: hacked-site doorways, scraped clones, auto-generated metadata, paste reposts, embed farms and pirate mirrors. They are printed with their URLs so the contamination is documented and reportable; the text of those pages is never treated as information about the artist. Rows elsewhere that carry red **FLAG** text still count, but the flag states honestly what kind of placement they are (pay-to-play PR wire, self-published page, wiki mirror, archive snapshot, user quiz ...).

WHAT IS NOT CLAIMED. No exhaustiveness: print-only, private, paywalled, deleted, unindexed or region-blocked presence cannot be enumerated, so absence in this volume means "not found on the census date", never "does not exist". Inclusion proves that a public record naming the artist exists; it does **not** validate any award, review, biography or claim made by that source. Search endpoints, API probes and archive lookups are method artefacts: they appear at the bottom of this appendix and are not counted as media features.

SOURCE FILE CONTRIBUTING LINKS TO THIS VOLUME	LINKS	ROLE IN THE RANKING
master_index	614	authoritative bucket, tier, status and evidence notes for every row it holds
data/master/master_index.csv	608	same canonical index read by the CSV harvester (deduplicated with master_index)
link_dump_pdf	316	raw research dump: adds links the curated master never kept, and is where the quarantine material starts
registry/seed/seed_unique_urls.csv	254	registry pass file: corroborating links, evidence notes and re-tiering
media_master_pdf	133	supplies Priority A/B/C, dates and publication headlines for the verified 133-record master
data/master/listen_links.csv	111	one listen link per compilation credit — fills the music-compilations section
registry/spam_scraper_syndication_lowtrust_2026-09-05/lowtrust_ledger.csv	85	registry pass file: corroborating links, evidence notes and re-tiering
registry/regional_alt_engine_pass_2026-09-05/candidate_ledger.csv	27	registry pass file: corroborating links, evidence notes and re-tiering
registry/regional_alt_engine_pass_2026-09-05/source_access_log.csv	27	registry pass file: corroborating links, evidence notes and re-tiering
registry/web_presence_expansion/discoveries.csv	25	registry pass file: corroborating links, evidence notes and re-tiering
registry/magazine_zine_features/source_access_log.csv	21	registry pass file: corroborating links, evidence notes and re-tiering
registry/magazine_zine_features/duplicate_map.csv	20	registry pass file: corroborating links, evidence notes and re-tiering
registry/magazine_zine_features/feature_directory.csv	19	registry pass file: corroborating links, evidence notes and re-tiering
registry/magazine_zine_features/visibility_matrix.csv	19	registry pass file: corroborating links, evidence notes and re-tiering
registry/spam_scraper_syndication_lowtrust_2026-09-05/source_access_log.csv	18	registry pass file: corroborating links, evidence notes and re-tiering
registry/web_presence_expansion/historical_records.csv	15	registry pass file: corroborating links, evidence notes and re-tiering
registry/web_presence_expansion/entity_map.csv	10	registry pass file: corroborating links, evidence notes and re-tiering
accomplishment_register_docx	7	register hyperlinks: relationship and outlet confirmations
registry/magazine_zine_features/candidate_ledger.csv	2	registry pass file: corroborating links, evidence notes and re-tiering

APPENDIX D.2 — SEARCH ENGINES, INDEX PROBES & ARCHIVE LOOKUPS USED BY THE CENSUS

method endpoints, not media records — reproduced so the census can be re-run
